Education

Indiana University Bloomington – Luddy School of Informatics & Computing

May 2027

Bachelor of Science in Computer Science, AI Specialization — Minors: Business, Data Science

GPA: 3.87/4.0

- **Honors:** IT Consultant of the Month (Nov '24), Dean's List (5x)
- **Coursework:** Data Structures, Intro to Artificial Intelligence, Principles of Machine Learning, Data Analysis & Mining
- **Involvements:** Luddy Student Ambassador — EY & Deloitte Technology Consulting Program — Kappa Theta Pi — Luddy Consulting Association

Technical Skills

Languages: Python, Java, C/C++, JavaScript, Swift, Ruby, SQL, HTML/CSS

Frameworks & Tools: TensorFlow, PyTorch, MLflow, React.js, Node.js, Express, Docker, AWS, Azure Databricks, Google Gemini, Supabase, MongoDB, PostgreSQL, Linux/Unix

Enterprise Systems: SAP S/4HANA, SAP BTP, SAP Concur, Oracle, ServiceNow, Microsoft 365

Certifications: AWS Certified Cloud Practitioner

Work Experience

University Information Technology Services

October 2024 – Present

IT Consultant Supervisor

Bloomington, IN

- Leveraged ServiceNow workflows and reporting dashboards to oversee campus technology infrastructure, processing 12,000+ tickets per month and enabling data-driven, proactive issue resolution.
- Coached and assessed 25+ technical support consultants through structured weekly feedback, while optimizing team deployment via capacity analysis to improve service delivery by 8% in 5 months.

Elanco Animal Health

May 2026 – August 2026

IT Junior Engineer Intern

Indianapolis, IN

- Built and shipped an Azure Databricks lakehouse pipeline ingesting daily FX rates from SAP, normalizing ratio-scaled raw values into model-ready rates and surfacing them through a self-service dashboard and a custom AI/BI Genie space for natural-language analysis, both now in production use by the Finance FX modeling team, cutting monthly reporting effort from 4 hours to 20 minutes (90%) and eliminating manual lookups on unusable raw rates.
- Prototyped an SAP Build Process Automation POC for accrual journal entries, orchestrating Document Information Extraction (DOX), Power Query transformation, and approval routing to post directly into S/4HANA to bypass manual Fiori submission; validated a 30-minute manual workflow running in 3 minutes (85%), projecting 300 hours saved annually across all company codes.

Future Wonder Co.

June 2025 – August 2025

AI Charioteer Intern

Bloomington, IN

- Led a development team using Agile workflows to engineer custom AI-supported reporting software in Python, deployed via AWS Lambda with Docker containerization and 3 REST APIs; integrated GitLab, Clockify, and Slack to cut reporting work from 3–4 hours to 30 minutes per week.
- Evaluated emerging AI tooling like Cursor and Windsurf for code generation, review, and unit testing; authored AI-assisted coding guidelines adopted team-wide, reducing MR review time by 15%.

Steel and Tube Industries Ltd.

February 2023 – July 2023

Software Engineer Intern

Kampala, Uganda

- Engineered Python software to automatically calculate optimal zinc coating weights, replacing manual processes in stainless steel manufacturing and raising product quality and effectiveness by 10%.

Projects

Lincoln-Douglas Debate App | *React, Express, PostgreSQL, Google Gemini, Supabase*

February 2026 – Present

- Built a full-stack AI debate tournament manager delivering AI judge feedback, structured prep briefs, and role-based access via Supabase Auth.

PixelScout | *Python, TensorFlow/Keras, NumPy, Matplotlib*

June 2024 – March 2025

- Innovated a CNN-based image classification system achieving 85% accuracy on CIFAR-10, reducing manual classification time through modular design and automated processing.

ALDI AI Team Case Competition | *Winner, BUS-K201, Indiana University*

January 2024 – May 2024

- Performed SWOT analysis and an operational audit of retail processes, developing AI-powered recommendations presented at ALDI HQ with a projected 4–8% sales boost.

Leadership

Luddy School of Informatics & Computing

January 2026 – Present

Teaching Assistant, Vibe & AI Programming

Bloomington, IN

- Support 30 students in an AI-assisted software development course, running weekly office hours and reviewing prototypes at each milestone to keep semester-long builds in scope.

National Society of Black Engineers (NSBE)

April 2024 – May 2026

Vice President

Bloomington, IN

- Organized fundraising events that boosted chapter participation in regional and national NSBE conferences by 40%, and developed retention workshops driving 30% chapter growth.
