Feb 2023 – July 2023

- Leveraged **SAP** to analyze vast datasets, fostering a **12%** improvement in alignment across production, sales, finance, and accounting departments.
 - Engineered specialized **Python** software to optimize zinc coating weight calculations, elevating product quality and manufacturing effectiveness of stainless steel by **10%**.
 - Reimagined employee affairs management with **EnQuest**, boosting recruitment and staff evaluation efficiency by **13%**.
 - Pioneered integration of social media features into the e-commerce platform, boosting sales by **15%** in 5 months.
-

Projects

[TrueLeap Inc.](#) Digital Experience Enhancement | *Luddy Consulting Association*

Feb 2025 – Present

- Modify and optimize current website **UI/UX** using **HTML, CSS and JS** reducing bounce rates by **20%** while increasing user retention by **15%** and page view duration by **25%**.
- Enhance **AI** chatbot system to achieve **85%** response accuracy with **<15%** hallucinations, maintaining 3-second response times and **4.0/5.0** user satisfaction rating

[EazyFlow](#) | *Personal Project*

May 2024 – Present

- Engineered an AI-driven traffic system with **python**, integrating data from **500+** smart intersections. Used **NumPy** and **scikit-learn** for data handling and predictive modeling, optimizing traffic flow, reducing wait times, and cutting emissions.

[AveMenu](#) | *Personal Project*

April 2024 – August 2024

- Developed a full-stack restaurant system using **JavaScript, HTML/CSS, Node.js/Express**; featuring responsive UI, real-time order tracking, **RESTful API**, and modular design that optimized operations and enhanced user experience.

[ALDI AI Team Case Competition Winner](#) | *Business in Computing BUS-K201, Indiana University*

Jan 2024 – May 2024

- Spearheaded comprehensive analysis of ALDI's retail business model, unveiling key operational challenges.
- Crafted and presented an AI-driven solution at **ALDI HQ** in Chicago, IL projecting a **4-8%** sales boost.

Underrepresentation in Technology | *Intro to Informatics INFO-II101, Indiana University*

Sept 2023 – Dec 2023

- Designed and launched an interactive website using **HTML, CSS, and Adobe XD**, increasing recognition of underrepresented tech figures by **8%** as measured through online surveys and boosted community engagement.
-

Community Involvement

Senator | *National Society of Black Engineers, Indiana University*

April 2024 – Present

- Organized fundraising events which boosted chapter participation in regional and national NSBE conferences by **40%**.
- Develop strategic initiatives to boost member acquisition and retention, achieving **30%**-chapter growth.
- Cultivate professional and social skills among members through organizing career events with recruiters.

Student Ambassador | *Luddy School of Informatics, Computing and Engineering, Indiana University*

Jan 2024 – Present

- Spearhead outreach initiatives for high school students and parents, highlighting Luddy's innovative tech degrees and vibrant student life through engaging faculty presentations while introducing career services and academic advising teams.
-
